

Von Roll wins largest VPI tank fill for High Voltage Resins in the Americas

Breitenbach, March 3, 2022 – One of the world's largest VPI tanks, based in North America, has now being filled with the leading high voltage resin in North America. The Von Roll product clearly outperforms the competition in all technical requirements.

High voltage resins play an essential role protecting sensitive technology in an effective way. At the same time, they enhance durability and performance significantly.

Carlos Huguet Sanchez, President & CEO of Von Roll USA, Inc. explains: "We are very proud that our resin system is used in the most demanding high voltage applications in the market. Our strong commitment towards our production footprint in the US makes us the ideal partner, especially in these uncertain times".

The high voltage resin is produced in Schenectady, NY which offers the widest product portfolio for electrical insulation systems in the Americas.

About Von Roll Holding AG: *As a Swiss industrial company, Von Roll Holding AG focuses on products and systems for power generation, transmission, storage and distribution.
